## Snapshot of the current situation for Standards to be cited in the OJ under the CPD

### Purpose

To give an overview for the Drafts/Standards linked with:

- The CPD directive 89/106/EEC
- The Standards to be cited in the Official Journal (mandated, also sometimes called 'harmonized standards' or 'hEN')
- Only active sStandards are listed (by superseding the previous one disappears)

### Structure

For those who are familiar with the CEN numbering please note that here priority is given to the 'market' vision of the Standard; e.g. corrigenda, amendments or revisions are not totalized separately but in a group which progress is measured according the global progress for the purpose.

### Labels

|                  |   |
|------------------|---|
| Standard Title   | Generic part of a Standard without date or function (for more details see the 'linked work item' description).  |
| Linked Work Item | Gives the unique CEN Work Item identification and hence existing the the full Standard reference.   |
| Last realized    | Gives the last registered (date of the Snapshot) evolution in major steps (description and internal milestone numbering) from each Work Item  |
| OJEU             | Gives references and dates from the registered history in the Official Journal from the European Commission. Because this in not a CEN operation, delays may occur between the OJ citation and the registration our database. |
| DOW              | Date of withdrawel registered in CEN's database. Their may be a difference with the dates cited in the OJEU (last minute change or registration time discrepancies).  |
| Man              | Gives a list of all mandates linked to the concerned Work Item (also manadates which are not specifically linked to the CPD).   |
