## Purpose

To give an overview for the Drafts/Standards linked with:

- The CPD directive 89/106/EEC
- The Standards to be cited in the Official Journal (mandated, also sometimes called 'harmonized standards' or 'hEN')
- Only active sStandards are listed (by superseding the previous one disappears)

## Structure

For those who are familiar with the CEN numbering please note that here priority is given to the 'market' vision of the Standard; e.g. corrigenda, amendments or revisions are not totalized separately but in a group which progress is measured according the global progress for the purpose.

## Labels

Standard Title	Generic part of a Standard without date or function (for more details see the 'linked work item' description).
Linked Work Item	Gives the unique CEN Work Item identification and hence existing the the full Standard reference.
Last realized	Gives the last registered (date of the Snapshot) evolution in major steps (description and internal milestone numbering) from each Work Item
OJEU	Gives references and dates from the registered history in the Official Journal from the European Commission. Because this in not a CEN operation, delays may occur between the OJ citation and the registration our database.
DOW	Date of withdrawel registered in CEN's database. Their may be a difference with the dates cited in the OJEU (last minute change or registration time discrepancies).
Man	Gives a list of all mandates linked to the concerned Work Item (also manadates which are not specifically linked to the CPD).
