

CEN Construction Snapshot

**Current situation for candidate harmonized standards
under the Construction Products Directive**

A decorative graphic at the bottom of the page consists of several overlapping, semi-transparent geometric shapes in shades of blue and grey, creating a layered, architectural effect.

1. Introduction

The objective of the CEN Construction Sector Snapshot is to provide standardizers and users of the standards with an overview of:

- the draft standards developed by CEN and ECISS Technical Committees, which will be cited in the Official Journal and provide presumption of conformity to the Construction Products Directive (CPD – 89/106/EEC);
- the amendments and revisions of harmonized product standards (hEN) already cited in the OJEU.

Priority is given to the 'market' vision of the Standard. Therefore, corrigenda, amendments or revisions are not totalized separately but in a group, which progress is measured according to the global progress for the purpose.

Please note also that the snapshot does not include anymore the complete list of harmonized product standards already cited in the OJEU. Indeed, in order to avoid discrepancies with the official list (i.e. the one cited in the OJEU), only the harmonized standards for which amendments, corrigenda and/or revisions are currently being progressed are listed. Should you need more information on the harmonized standards, please refer to the OJEU and to the list in NANDO where you will be able to find the dates of withdrawal for each hEN (cf page 5 of the snapshot).

The labels used in the different sections of the snapshot can be understood as follows:

- **Standard:** generic part without date or function (for more details see the 'linked work item' description)
- **Linked Work Item:** gives the unique CEN Work Item identification and, if existing, the full Standard reference.
- **Last realized:** gives the last registered (date of the Snapshot) evolution in major steps (description and internal milestone numbering) from each Work Item.
- **OJEU:** gives references and dates from the registered history in the Official Journal from the European Commission.
- **DOW:** Date of withdrawal registered in CEN's database. There may be a difference with the dates cited in the OJEU (last minute change or registration time discrepancies).
- **Mandate:** Gives a list of all mandates linked to the concerned Work Item (also mandates which are not specifically linked to the CPD)

Moreover, several acronyms, referring to the different steps of the approval process of a standard, are used to describe the last registered evolution (more information on each step can be found on the CEN BOSS <http://www.cen.eu/boss>) and mean the following:

- **ENQ:** Enquiry
- **FV:** Formal Vote
- **UAP:** Unique Acceptance Procedure
- **DOR:** Date of Ratification
- **DAV:** Date of Availability

3. Approved standards

a. Approved Standards cited in the Official Journal

The last publication of references of harmonized product standards in the Official Journal was made in the Commission communication in relation to Council Directive 89/106/EEC construction products in [OJ C 321 of 2008-12-16](#).

The dates of withdrawal of the harmonized product standards can be found on the [NANDO website](#).
