

## Corrigendum to CPD Snapshot (June 2010)

### Approved standards cited in the Official Journal (not mentioned in the Snapshot)

1) The following standards are not included in the June version of the Snapshot as a consolidated amended version or a revision of the standard has been published since the last publication of the list of harmonised standards under the CPD in the Official Journal. For this reason, a discrepancy exists between the last version of the list in the OJEU and the monthly Snapshot.

The standards still cited in the Official Journal that will be replaced by the revised or the consolidated amended versions in the next publication are:
